

Aspen, CO, Aspen, 81611, CO, United States

First time ever on the market, this is one of Aspen's finest estates. Located just 2.5 miles from Aspen's downtown core this 11,880 square foot residence sits on 83 acres. Built in 2009, this design is as classy and comfortable as they come. Coming from Aspen, this property begins just as you cross the Roaring Fork river and Rio Grande bike trail. Upon entering the private motor court your mountain paradise begins. Enter through the great room and walk out to the swimming pool and hot tub to take in the enormous views of Aspen's entire upper valley including views unique only to this property and the Sunnyside Trail. Built by Bill Harriman Construction, the details are amazing. There are 6 bedrooms, in the main house and one in the guest house. Before entering up the private stairs to
